

Global Brand Coverage

Coverage through current inventory, ongoing supply programs and project sourcing.

01	ICs + ANALOG	Texas Instruments Analog Devices STMicroelectronics NXP Infineon onsemi	Microchip Renesas ROHM Nexperia MPS Diodes Incorporated
02	COMPUTE, RF + LOGIC	AMD / Xilinx Intel / Altera Broadcom Qualcomm MediaTek	Qorvo Skyworks Lattice Cree / Wolfspeed Vicor
03	MEMORY + STORAGE	Micron Samsung SK hynix Kioxia	Winbond ISSI Macronix Kingston
04	PASSIVES + INTERCONNECT	Murata TDK Vishay KEMET Kyocera AVX Bourns	Yageo TE Connectivity Molex Amphenol Littelfuse Hirose

Three ways we support your BOM

[CURRENT INVENTORY](#) | [SUPPLY PROGRAMS](#) | [PROJECT SOURCING](#)

Brand coverage may reflect inventory, historical supply and project sourcing. Availability and source channel are confirmed at quotation. Brand names belong to their respective owners; coverage does not imply authorized distribution.

China-Based Alternatives

Strong local portfolios can expand cost, availability and lifecycle options - qualified project by project.

MCU, MEMORY + CONNECTIVITY

GigaDevice

NOR Flash / MCU / memory

Puya Semiconductor

Flash and EEPROM

Espressif Systems

Wi-Fi / Bluetooth SoCs

MindMotion

Arm microcontrollers

Nations Technologies

Security and MCUs

Fudan Microelectronics

FPGA / memory / security

ANALOG + POWER MANAGEMENT

SGMICRO

Analog, power and signal chain

Awinic

Audio, haptics and analog

Silergy

Power management

Southchip

Charging and power

RF, AUTOMOTIVE + POWER

Maxscend

RF front-end

SemiDrive

Automotive SoCs

Yangjie Technology

Diodes / power devices

StarPower

Semiconductor

IGBT / power modules

CONNECTED DELIVERY

Components + PCBA

Component sourcing, incoming QC and project coordination connected with Informic's in-house PCBA production.

QUALIFICATION RULE

Alternative options require engineering qualification by exact part number, specification, package and compliance requirement. No design-in equivalence is implied unless confirmed.
